

ACRYLIC COATING

SOLVENT-BASED // WET LOOK

CRYLI-TEK[®] 5505

High Gloss Concrete Sealer

AN INDUSTRIAL-GRADE, SOLVENT-BASED, NON-YELLOWING, EXTREMELY DURABLE METHACRYLATE CONCRETE SEALER THAT ENHANCES, PROTECTS, AND PROVIDES A CLEAR, WET LOOKING, HIGH-GLOSS FINISH.

BENEFITS:

- // Increases Abrasion Resistance
- // Reduces Water Absorption
- // Resists Mold, Mildew & Surface Staining
- // Color-Enhancing / Non-yellowing
- // Extends the Color Life of Concrete Stain

DESCRIPTION:

Cryli-Tek® 5505 provides industry leading performance and protection with just one application. This proprietary formula will give your surface a high gloss, wet-look shine with a clear non-yellowing, protective finish. It has an extremely fast set time and delivers unsurpassed stain resistance. The end result is years of protection and a durable finish that will resist chipping, flaking, delamination and breakdown caused by UV light exposure.

PERFECT ON:

Concrete, stamped concrete, pavers, exposed aggregate and decorative stone.

DESIGNED FOR:

Exterior and interior concrete or masonry surfaces including patios, pool decks, driveways and walkways.

MEETS OR EXCEEDS:

ASTM D-3359: Adhesion
ASTM D-3363: Film Hardness
ASTM D-4541: Pull-Off Strength
ASTM G-155: Accelerated Weathering
ASTM D-523: Specular Gloss
