“GenStone was so easy to work with. I installed the two areas in my photos in five hours total with prep work! This would have taken days if done in stone veneer. I can’t believe how real it looks once it is installed. GenStone also has an R rating for insulation which you never get with the veneer. Less time to install freed me up to spend time with my family enjoying my new patio!”

—Michael M, Milliken, CO

“Looks like real stone. Very cost-effective. Would recommend”

—Robert, Peachtree City, GA

“When we built our house in 2012 we wanted a stone fireplace but could not afford one at the time. I had gave up on the project but my wife was going to find a way. One night she ran across your product on the internet. I am not a carpenter but installed the whole thing using a hand saw and a cordless drill. We couldn’t be happier with the result. Thank you Gen Stone!”

—Illinois

“Found online and installed last month. Could not be happier. If you can operate a power saw and drill, you are an expert installer. Would highly recommend and the help I received from Lonnie and Rob was very professional.”

—Steve, Bainbridge, OH
Stratford Profile Inspiration

The GenStone design team created our iconic Stratford faux stone panels to convey timeless elegance. Their inspiration birthed the likes of Shakespeare and holds centuries-old buildings that have gracefully withstood time. The location: a well-known suburb of England, known as Stratford-Upon-Avon.

Honoring romantic Old English charm, the GenStone Stratford faux stone panel features an understated, yet noble blend of earth tones including slate, rose, and beige. Stratford is an ideal choice for those who want a cool, sophisticated look that brings tradition and style together for one timeless design. Order a sample today to try Stratford on your next project.
