

VYCOR® PLUS

Window & Door Flashing

Premium Water Protection
for Windows

Vycor® Plus is a high performance self-adhered flashing, that provides premium protection against water infiltration in critical details such as windows and doors. When properly installed, Vycor® Plus flashing reduces the risk of mold and rot development, and contributes to energy efficiency.

"I've been in the building industry for over 30 years and have never received a call back on leaking windows after I started using GCP Applied Technologies' Vycor® Plus flashing tape. Easy to install and the peace of mind of knowing that if I do get a callback, it is not because of water leaking from the window flashing. I was the Superintendent on a project where we built 47 condos on the water in Avalon, NJ. Even after hurricane Sandy, we didn't get a call back on water leaking from around the windows. Great product and highly recommended."

—Jerry Giles, Ehret Construction

- Protects vulnerable details from moisture penetration
- Limits air leakage around windows & doors
- Forms a water & air seal with building materials

Proven Track Record

Vycor® Plus flashing employs the same proven technology as Grace Ice & Water Shield® – the leader in roofing underlayments for over 35 years

Roll Width	4 in., 6in., 9 in., 12 in., 18 in.
Roll Length	75 ft.

Why GCP VYCOR® PLUS Flashing?

Superior Adhesion to Substrate

Forms strong waterproof bond

Protect clients' walls against mold, mildew and rot

Seals Around Fasteners

Prevents water penetration to the substrate

Give clients peace of mind with premium protection

Forms Superior Laps

Ensures strong laps even at seams in the flashing

Another defense against moisture intrusion

Ripcord® and Measurement Markings

Enables fast and easy installation

Opportunity to flash more windows

Highly Conformable and Flexible

Accommodates settlement and shrinkage movement

Premium protection even in hard to work areas
