**AXIS™**

#### Horizon Curve Head

A slight curvature of the head for elegant, professional results. The Finish Ring underneath the head also provides a better finish by cutting the top fibers in the wood for an extra step in countersinking.

#### Turbine Ribs

The Turbine Ribs cut quickly into the wood, leaving a professional, clean finish with maximum wood contact. The cup shaped countersinking head provides increased holding power and reduced risk of splitting.

#### Twin Blade Knurls

This set of knurls cuts fast to dramatically reduce friction and heat on the shank, while reducing load on the drill. They also provide better performance by removing debris faster than a standard fastener's knurl.

#### Fast Start Tip

With the sharp threads all the way to the tip, the fastener has an immediate grip for a fast start. The inset thread cut drastically reduces splitting effect and minimizes the driving torque needed to engage the wood.

The Advanced, General Purpose Wood Screw for typical interior, medium-corrosive environments. Use them on any size job or project from framing to small wood working!

Available in 1lb, 5lb and 1/4 Keg  
All Packaging Includes Free Bit!

# THE ULTIMATE FASTENERS

## INTERIOR

## STRUCTURAL

The AXIS™ Wood Screw is designed to take wood screws to an entire new level. Every facet has been evaluated and improved (patents pending). Our extra sharp Fast Start Tip saves you time onsite and the Twin Blade Knurls outperform the competitors. The Turbine Ribs ensure an incredibly clean finish. Its cup shaped countersinking head, provides unparalleled holding power and less risk of splitting the wood. The Horizon Curve Head has been architecturally engineered to leave an elegant finish.

### Sizes Available: #8 x 1" to #10 x 6"

General Info				
Type of Screw	General Purpose Wood			
Material	Coated Carbon Steel			
Coating	ZYTEC™ +			
Head Style	Countersinking Star Drive			
Point Type	17			
Construction		#8	#9	#10
Head diameter (inch)		0.331	0.370	0.409
Minor thread diameter		0.106	0.122	0.136
Major thread diameter		0.165	0.183	0.211
Shaft diameter		0.122	0.136	0.154
Drive Size		TX20	TX20	TX20
Product Range		Approx Count per 1lb		
Length	Thread	#8	#9	#10
1"	3/4"	253		
1-1/4"	7/8"	214		
1-1/2"	1"	181		111
1-3/4"	1-1/8"	159		
2"	1-1/4"	146	112	85
2-1/2"	1-1/2"	118	92	70
2-3/4"	1-1/2"		83	
3"	1-1/2"		78	59
3-1/2"	2"			51
4"	2"			46
5"	2-1/2"			37
6"	2-1/2"			31

### TYPICAL INTERIOR USE

ZYTEC™+ : Typical heated, dry room environments with clean air (low or no condensation/minimal outdoor exposure) such as homes, shops, offices, schools, hotels, etc. Environmentally friendlier than Yellow Zinc.

### Common Applications

- General indoor jobs
- Remodeling and repair
- Interior framing
- Trim work
- Windows and doors
- Cabinetry
- Post and beam
- And much more!
