FASTENERS**

**EXTERIOR**

**TRIM HEAD SCREW**

**EPIC™**

#### Advanced Trim Head

The Epic Trim Head is slightly larger in diameter than industry standards. This combined with the patent pending Turbine Ribs gives maximum holding power while leaving a clean, professional finish.

#### Turbine Ribs

The Turbine Ribs cut quickly into the wood, leaving a professional, clean finish with maximum wood contact. The cup shaped countersinking head provides increased holding power and reduced risk of splitting.

#### Twin Blade Knurls

This set of knurls cuts fast to dramatically reduce friction and heat on the shank, while reducing load on the drill. They also provide better performance by removing debris faster than a standard fastener's knurl.

#### Fast Start Tip

With the sharp threads all the way to the tip, the fastener has an immediate grip for a fast start. The inset thread cut drastically reduces splitting effect and minimizes the driving torque needed to engage the wood.

The advanced Trim Head Wood Screw with ZYTEC™XT corrosion protection coating is for typical high-corrosive exterior and interior environments. For any size job or project.

Available in 1lb, 5lb and 1/4 Keg  
All Packaging Includes Free Bit!

# THE ULTIMATE FASTENERS

## EXTERIOR

## TRIM HEAD SCREW

The EPIC™ Trim Head Screw is designed to take wood screws to an entire new level (patent pending). Our extra sharp Fast Start Tip saves you time onsite and our Twin Blade Knurls outperform and other. The Turbine Ribs ensure an incredibly clean finish. Its cup shaped countersinking head provides unparalleled holding power and less risk of splitting. The small trim head provides a clean, professional connection.

**Sizes Available: #9 x 1-5/8" to #9 x 5"**

General Info		
Type of Screw	Trim Head Wood Screw	
Material	Coated Carbon Steel	
Coating	ZYTEC™ XT	
Head Style	Countersinking Star Drive	
Point Type	17	
Construction		#9
Head diameter (inch)	0.268	
Minor thread diameter	0.122	
Major thread diameter	0.183	
Shaft diameter	0.136	
Drive Size	TX20	
Product Range		Approx Count per 1lb
Length	Thread	#9
1-5/8"	1"	148
2"	1-1/4"	122
2-1/2"	1-1/2"	98
3"	1-1/2"	82
4"	2"	61
5"	2-1/2"	50
Also Available with White Painted Head		

### TYPICAL EXTERIOR USE

**ZYTEC™ XT:** for general outdoor use. Compatible with most above ground pressure treated lumber. For ground contact treated lumber, areas within one mile of saltwater, near swimming pools, exposure to corrosive chemicals, or other areas where corrosion is more likely to occur, use proper grade Stainless Steel.

### Common Applications

- General indoor and outdoor jobs
- Trim work
- Interior and exterior framing
- Windows and doors
- Remodeling and repair
- Residential construction
- Cabinetry
- And Much more!
