FASTENERS**

**EXT #18 HEX HEAD**

**STRUCTURAL LAG**

**YUKON™**

**Large Washer Hex Head**

Strong lag screw with 5/16" Hex Head for a powerful torque transmission and easy installation. The built-in washer underneath the head provides great holding power and works well for heavy duty applications.

**Twin Blade Knurls**

This set of knurls cuts fast to dramatically reduce friction and heat on the shank, while reducing load on the drill. They also provide better performance by removing debris.

**Fast Start Tip**

With the sharp threads all the way to the tip, the fastener has an immediate grip for a fast start. The inset thread cut drastically reduces splitting effect and minimizes the driving torque needed to engage the wood.

The advanced Heavy Duty Timber Screw with triple corrosion protection coating for typical low-corrosive, exterior, and interior environments. For any size job or project.

Available in 1lb, 5lb and 1/4 Keg  
All Packaging Includes Free Bit!

## EXT #18 HEX HEAD

## STRUCTURAL LAG

**Sizes Available: #18 x 4" to #18 x 11"**

General Info	
Type of Screw	Hex Head Structural Wood Screw
Material	Coated Carbon Steel
Coating	ZYTEC™ XT
Head Style	5/16" Hex Head
Point Type	17
Construction #18	
Head diameter (inch)	0.630
Minor thread diameter	0.205
Major thread diameter	0.315
Shaft diameter	0.226
Drive Size	HEX
Product Range #18	
Length	Thread
4"	2"
5"	2-3/4"
6"	2-3/4"
7"	2-3/4"
9"	2-3/4"
11"	2-3/4"

### TYPICAL EXTERIOR USE

**ZYTEC™ XT:** for general outdoor use. Compatible with most above ground pressure treated lumber. For ground contact treated lumber, areas within one mile of saltwater, near swimming pools, exposure to corrosive chemicals, or other areas where corrosion is more likely to occur, use proper grade Stainless Steel.

### Common Applications

- Landscaping
- Timbers
- Heavy duty lumber
- Deck framing
- Ledgers
- Posts
- Beams
- And Much more!
