

Solar Deck Lights *by* Aurora DECK LIGHTING

Rechargeable Batteries:

Rechargeable batteries have been supplied with this Solar Light. **The solar panel must be turned on prior to use.** To do this:

1. The solar panel must be pointed toward a light source (the sun is preferable) when turning 'on' the solar lights using the on and off switch (located on the bottom of the solar panel). Do not hold the panel upside down in your hand the light will not turn on if it not directed at a light source when turning on.
2. Test the batteries: The solar panel automatically turns the solar light off upon detecting sunlight (there is about a 5 second delay when the panel turns on or off). Cover the solar Panel with your hand. The solar L.E.D. lights should illuminate. Occasionally the batteries will drain prior to initial use. If this occurs, the Solar Light should be placed in direct sunlight for a period of up to two weeks before reaching full operating charge. The light will still work but may not be at its full potential.
3. To Replace the battery: Turn the panel or Light (for Aries) over. Remove two screws on the bottom side of the solar panel. Carefully pull the LED circuitry off revealing the battery and its connection. Disconnect the battery and reconnect the new battery. Replace the 2 screws.

Battery Replacement:

You must **NOT** use regular alkaline batteries in this product. Replacement Batteries must be Rechargeable 3.7 Volt 1400Mah Li-ION Battery. Use of any other battery type will void warranty and may ultimately damage the Solar Light beyond repair. To replace the batteries, follow the step 3 above, removing and replacing the existing batteries.

NOTE: Do not touch or attempt to remove the LED light source. The batteries must be fitted as indicated by the diagram at the bottom of the battery chamber.

FREQUENTLY ASKED QUESTIONS:

1. **What is the run time on the solar light?** Run time is based on the season, and location. Northern climates will have a run time during the summer of 7-10 hours, and 2-5 hours during the winter months. Southern climates will have a run time during summer months of 7-10 hours and 4-6 hours during winter months. The amount of sunlight is a direct correlation to run time – cloudy days will effect the run time. These lights need direct sunlight to charge the battery. Mounting under trees, under eaves, etc., will inhibit the ability to charge.
2. **How long will the Solar lights last?** The LED bulbs are designed to last a lifetime. These are of the highest quality and latest technology available today. The batteries are Li-ION batteries. These are rated for approximately 500 cycles, or roughly 1 1/2 years. Batteries are warranted for one year.
3. **My solar light will not light up?** The most common issue is the battery. It takes up to three weeks for a new solar unit to cycle to full capacity. Winter months will effect this cycle time as well, if installed in the middle of winter.

Warranty Information

Unless otherwise noted, all Aurora Deck Lighting Solar products are covered by a one-year limited warranty.

The solar panel is covered with a 2 year warranty. The Battery is covered with a 1 year warranty.

Aurora Deck lights warrants this product against defects in materials or workmanship as follows:

For the first year from the date of purchase, Aurora Deck lights will repair or replace the unit, at our option, without charge for parts or labor. After the indicated period of one year, the product owner is subject to pay repair and parts fee.

This limited warranty is non-transferable, and consequently only valid toward the purchaser of this product. It does not cover damage or failure caused by or attributable to natural disaster, abuse, misuse, improper or abnormal usage, faulty installation, improper maintenance, lightning, or other incidences of excessive voltage, or any repairs or tampering by other than by Aurora Deck lights or its Authorized Service Center. Repair or replacement under the terms of this warranty does not extend the terms of this warranty.

Should this product be proven defective in workmanship or material, the consumer's sole remedies shall be such repair or replacement as provided by the terms of this warranty. Under no circumstances shall Aurora Deck lights be liable for any loss or damage, direct, consequential, or incidental, arising out of the use of or inability to use this product. Some states do not allow limitations on how long an implied warranty lasts or the exclusions or limitations of incidental or consequential damages, so the above limitations or exclusions may not apply to the product owner. This warranty gives the product owner specific legal rights. The product owner may also have other rights, which vary from state to state.

To obtain warranty service, contact Aurora Deck lights Service Department at **1-800-603-3520**. When returning a unit for warranty service, the product owner must obtain a return merchandise authorization number from a service representative of Aurora Deck lights. In addition, please include a copy of the product owner's sales receipt, a brief description of the symptoms, name, address, and phone number. Then deliver or ship the product, postage or shipping costs prepaid (insurance suggested), to:

Aurora Deck Lights
960 E Milwaukee Street
Whitewater, WI 53190

All warranty repair or replacement will be returned to the customer using UPS® Ground service or other carriers at our option. If a faster carrier method is requested, the product owner must pay the cost difference over the UPS® Ground service charge. Aurora Deck lights is not liable for products lost or damaged during shipment.
