

# DEKORRA ROCK ENCLOSURES

## Vent Installation:

Allowing for airflow within Dekorrra Rock Enclosures is very simple. Dekorrra offers a number of ventilation sizes and options depending on your application. From 1.5" up to 6" an easy install vent is available.

- Decide on vent size needed for your application Color options are Silver or Brown, Autumn Bluff and Sandstone
- Locate a flat location on the rock that will accept the entire vent
- Drill using a dedicated hole saw bit for the appropriate size vent
- Install vent into opening
- Fold back locking tabs on rock interior to secure vent in place (6" vents are designed with a locking collar and not foldable tabs)
