## Coffee

Deep Brown with  
Subdued Brown  
Highlights

“

“We used the Coffee Stacked Stone to cover the old ugly concrete foundation around our house and we couldn't be happier! It was easy to install and super easy to handle... I highly recommend this product and this company - everything was first-rate and top quality.”

—St. Louis, MO

“

“After doing a fair amount of research into a lot different faux stone and real stone products we decided to go with your product. Glad we did. I will admit we had some small ordering and customer service issues but the product itself was great. Easy to work with and looks amazing on the House. Super easy to install.”

—Clover, SC

“

“So happy with the way it turned out. Have a few touch-ups to do like painting the gutter brown that is over the rock section.”

—Karen, Huntsville, AL

“

“Great product. Easy to install. Easy cleanup. Looks real and hopefully is durable. Purchased summer 2020”

—Ted, Erie, PA

“

“After moving into our new (existing) home in August 2018 we knew we wanted to re-do our two story fireplace. After a few searches we discovered GenStone. The texture and appearance looks unbelievably realistic. If you are serious about a stone look, give GenStone serious contemplation. I'm telling you, you cannot tell it's not natural stone. You can do it!”

—Rocke, Charlotte, NC
